

FABRICATED SYSTEMS

McCOOK
BOILER & PUMP

PLUG-AND-PLAY **BOILER ROOM SOLUTIONS**

- ▶ CUSTOM DESIGN
- ▶ COMPREHENSIVE ENGINEERING
- ▶ COMPLETE ASSEMBLY

***Skid-Mounted,
Pre-Piped, and
Wired Solutions
for any Application:***

- ▶ STEAM
- ▶ HEATING HOT WATER
- ▶ DOMESTIC HOT WATER
- ▶ HEAT EXCHANGING

SINGLE-SOURCE RESPONSIBILITY

McCook Boiler & Pump Company's fabricated systems take complex industry solutions, and turn them into simple plug-and-play packages for the end user. Our approach is to utilize advanced products, materials, and engineering methods that will ultimately provide unrivaled performance, efficiency, and rugged dependability over the life of the system. By taking ownership over every step in the process, from conceptual design to completion, McCook Boiler & Pump Co. guarantees something that no one else can: **peace of mind.**

WPH

Maximum efficiency begins with air-seal.

Maximum efficiency begins with air-seal.

Maximum efficiency begins with air-seal.

6" HHV

STEP 1. CONCEPTUAL DESIGN & PRICING

1

- Review project application and site-specific needs
- Determine performance and efficiency requirements
- Customize equipment selections
- Develop pricing proposal and general layout drawing

STEP 2. DETAILED ENGINEERING

2

- Determine appropriate piping/pumping configuration
- Assess need for specific controls and instrumentation
- Complete multi-view detailed design in AutoCAD
- Provide electronic submittals for review and approval

STEP 3. CONSTRUCTION

3

- All-welded construction of 4" or 6" structural steel base
- Complete pre-piping with Victaulic fittings and valves
- Pre-wiring of all electrical and controls components
- Single-Point Customer Connection (Water, Electric, Gas)

STEP 4. DELIVERY, STARTUP, AND TRAINING

4

- Pressure test completed prior to delivery
- Rigging and Delivery to the job site
- On-site startup procedures performed by qualified technician
- Comprehensive owner/operator training

PRODUCT FLEXIBILITY

OUR PRODUCT OR YOURS

McCook Boiler & Pump Co. exclusively represents a wide range of leading manufacturers of boilers, pumps, heat exchangers, tanks, and accessories. Any of these product solutions can be integrated into the fabricated system design.

If your preferred manufacturer is not part of our product line, simply notify us of your preference. These products will be integrated into the design to ensure our fabricated solution meets your exact specifications.
